## Cleaning Campaign by the members of NVSS

*Date: July 4, 2008*

*Venue: The road near Drugs, Vaccines and Equipment Division en-route to Chanzamtok*

A total of 16 members got together to clean the road from DVED (Drugs, Vaccines and Equipment Division) en-route to the dwellings in Chanzamtok above the Changzamtok School. The road isn't just rough. There are people who empty their dustbins there at night. There is no proper drainage and the water just floats there and the path/road is a beautiful puddle.

*Cleaning Campaign just begun. Cleaning the drain near DVED that always get blocked when it rains.*

*Cleaning the road en-route to dwellings beyond DVED. People living in the nearby areas dump their dustbins in the corner of this road. The plants that hide their litters are cut off.*

*Cleaning the drain on the same road. This is the cause for the number of puddles on the road.*

*All the treasures in the corner of the road and hidden behind the trees are revealed.*

*One of the members' Hilux used as pickup truck. We took the rubbles dumped near Drukonet (call center) to fill up the pot holes.*

*Filling the road, creating a footpath for the pedestrians.*
